

1. K-LOVE serves my family, friends and me with uplifting, contemporary Christian music and news that cannot be found on any other station locally.
2. Should K-LOVE be replaced by an LPFM broadcaster providing other programming, we would likely be left with stations that we would prefer our children not listen to. Presently, our other programming options include music and deejays screaming vulgarities and sexually explicit material or radical views not shared by the conservative public.
3. I believe K-LOVE and the programming they offer is in the best interest of any member of the public that respects godly values not influenced by the overwhelming liberalism that has become pervasive throughout our society.
